34-18.

The General Electric Co., Ltd.

TERMS OF BUSINESS AND CONDITIONS OF SALE.

1.—HOW TO ORDER.

WHEN ORDERING:-

- Quote Section Letter and Catalogue No. If special quotation has been submitted, give quotation reference also.
- State whether order to be sent in one consignment only, or whether immediate delivery is to be made of what is in stock. If it is not imperative that the exact articles specified be sent, add the words "or similar."

TELEPHONE ORDERS :-

The telephone number of the G.E.C. Head Office, Magnet House, Kingsway, is Regent 7050 (50 lines). That of each of the Company's branches will be found on page 4 of the cover of this Catalogue section. The Company is prepared to execute orders from its customers received by telephone, but in the interests of customers themselves, all such orders should be confirmed in writing. All Orders confirming Verbal Orders should be plainly marked "Confirmation."

CORRESPONDENCE :-

Owing to the variety of the goods handled by the Company, letters and telegrams dealing with orders should specify:-

Order number and date.

(b) The nature of the goods, or the section of the catalogue concerned.

2.—A WARNING.

Instances have occurred where Shippers, Merchants, Contractors, and others receiving indents, specifications, and orders for goods described merely by reference to letters and numbers contained in the Company's Catalogues, have quoted for or supplied the goods of other manufacturers under the said letters and numbers. The Directors of the Company have been advised that such action is a fraud upon the Company's rights, and have been successful in obtaining an injunction and damages in proceedings taken in the Chancery Division of the High Court of Justice. The injunction restrained (inter alia) the use or employment in connection with electrical goods not manufactured or supplied by the Plaintiffs, of letters or figures having reference to the Plaintiff's Catalogue, so as to induce the belief that such goods are manufactured or supplied by the Plaintiffs.

While inviting all persons engaged in the electrical trade to make frequent reference to the Company's Catalogue as a standard work on electrical materials and goods, the Directors feel bound to issue this warning against an improper use of the Catalogue.

GENERAL CONDITIONS OF SALE.

The Company will use its best endeavours to execute Orders to time, but under no circumstances will be responsible for late delivery. The Company reserve the right to cancel any uncompleted Orders or suspend delivery in the event of any of the buyers' engagements not being duly met, or if they have reason to believe that such engagements may not be met.

RETURNS :-

Goods cannot be taken back later than 10 days from date of Invoice.

Returned goods will not be accepted unless accompanied or preceded by an Advice Note.

Advice Note must state reason for the return of goods, the date, reference letter and number of the Invoice on which the goods were charged.

The acceptance of returned goods does not necessarily entitle to credit for same. Credit can only be given when the claim has been examined and found correct.

Goods should not be returned in cases consigned as "empty" since, if so consigned, they are very liable to get lost in transit, or overlooked, in which case the Company will not hold themselves responsible, and no credit can be given.

BREAKAGE, DAMAGE, AND PILFERAGE :-

Except in special cases the Company do not hold themselves responsible for any loss or damage in transit. Goods should be examined immediately on delivery, and in the case of breakage, damage or pilferage the Consignee should notify the Carriers immediately, and lodge a claim within three days of delivery, keeping the broken or damaged articles for examination.

In the case of non-delivery a claim must be lodged with the Carriers within fourteen days of despatch.

Claims for alleged shortage can only be entertained if received within three days of receipt of goods and if accompanied by fullest possible particulars of case, number, condition, etc.

CONSEQUENTIAL DAMAGE :-

Whilst every care is taken to ensure correct execution of orders, and whilst any faulty goods are of course replaced, the Company will not entertain claims for consequential damage, loss of time sustained, cost of repairs executed without previous

SUBSTITUTION OF IMPROVED DESIGNS :-

The Company will supply that pattern which experience has shown to be the best, instead of invariably sending exactly the one that may be ordered.

DIMENSIONS AND DRAWINGS :-

Although all dimensions and drawings appearing in the Company's Catalogue have been compiled with every possible care, no guarantee is given that same will not be departed from or varied without notice.
